HYGIENE PRODUCTS TAILORED FOR THE STRONG, PROUD & READY

PRODUCT EXPERTISE

Hygie develops, manufactures and markets specialty hygiene products. This Canadian company has developed strategic partnerships with over 700 professional associations of the first order. They are proud to work with these organizations to clearly identify current challenges in their industry and overcome together. Their customers come from a wide range of sectors such as, Health Care, Infection Control, Governmental, Schools, Home Care, Long Term Care, Outdoors and Traveling.

YOU'LL BE PREPARED

The Hygie Team is dedicated to supplying you with qualified advice, continuous support, and priceless suggestions to guarantee you are getting the most out of the Hygie® products. From the very beginning, through implementation and beyond, they offer the most advantageous solutions to meet your requirements. Hygie has been building relationships with clients and has remained dedicated to doing everything they can to make every implementation as positive and successful as possible.

READY-TO-USE PRODUCTS

What sets Hygie apart from the competition is their ready-to-use products which includes their unique super absorbent pad in each Hygienic Cover (bag) which is designed to turn up to 600ml of liquid wastes into a gel within seconds. Finally no more powder like the competitors! Made from 100% recycled materials this pad has a proven track record and is used in hospitals to make the collection, transportation and disposal easier and safer. They help reduce the risks of splashes, spills and germ dispersal which contributes to the prevention of healthcare-associated infections and cross-contamination.

MADE IN CANADA & SERVING GLOBALLY

Hygie knows the ability to grow as a company depends on the way the clients are treated, the benefits for communities and how they serve their customers. As a manufacturer, they carry inventory levels to meet your needs so that you can deploy quickly and efficiently. Constantly exploring new markets on 5 continents, they are passionate about their goal to be the global leader in the management of biological fluids and operating responsibly across the institutional, civil security and homecare markets.
