6 HYGIE CANADA*

Hy21 Urinal Kit

The Hy21 Urinal Kit replaces the plastic or stainless steel urinal. The super-absorbent pad inside the hygienic cover turns liquids into gel, blocks smells, limits the spread of germs and protects the comfort, autonomy and dignity of users. The Hy21 Urinal Kit allows people of all ages to urinate discreetly, in all circumstances: in bed, in a wheelchair, on a trip or in a car. Also eases the burden of health workers. Visit hygie.com.

7 HYGIE CANADA*

Wet Wash Gloves

The hygienic Wet Wash Gloves made of polyester are both soft and ultra-resistant. Containing no soap or alcohol, they are perfect for homecare with mobility impaired and incontinent customers. The gloves are soaked in an aloe-based cleansing solution, and are hypoallergenic and dermatologically tested. The cleaning gloves can be warmed up in a microwave oven for greater comfort. Visit hygie.com.

8 KT TAPE

Flex Tape

KT Flex Tape is an innovative way to provide more effective, comfortable support for weak or injured knees. KT Flex is a 2-strip application system. One reinforced tape strip is applied to the inside of the knee. The other reinforced strip has embedded FreeFlex inside and is applied to the outer knee. Stabilizing sleeves on the market are often sweaty, smelly, slippery and restrict movement. KT Flex Tape provides the support of a sleeve with the freedom of KT Tape. Visit kttape.com.

9 MOBILITY DESIGNED*

M+D Crutch

The M+D Crutch supports the user's weight by evenly distributing it through the elbows and forearms removing pressure that existing crutches can put on armpits, hands and wrists. Features include an unlocking cradle to allow for reaching without removing the crutch, a rotating handle for hands-free mobility, flexible arm bands that mold to the user's arm and interchangeable feet that grip the earth. The entire crutch is customizable in both height (from 4'11" to 6'8") and arm length. Visit mobilitydesigned.com.

10 MOST CORPORATION*

Handy Cane

The Handy Cane is a walking aid that looks and functions like an ordinary cane, but has a built-in grasper to pick up hard-to-reach objects. When not in use, the grasper is completely tucked away for a stylish and elegant cane that provides support and stability on the go. Visit thehandycane.com.

11 MOTIVO*

Tour

The Motivo Tour is a revolutionary new walker that provides greater independence, ergonomics and personal style. Its patented design allows users to walk inside and upright versus behind and hunched over as with most traditional rolling walkers. Integrated into the Tour is the padded stowaway seat, flip-out tray with multiple cup holders and private storage compartment. The sleek design and automotive-grade materials are nonmedical looking, giving the user a sense of personal pride and dignity. Visit motivo.com.
